

CHARITON COURIER.

G. P. VANDIVER, ED. AND PROP.

KEYTESVILLE, - MISSOURI.

Entered at the Post-office at Keytesville, Mo., as second-class matter.

For Our Farmer Readers.

Never choose for canning fruit that which has passed its prime.

Green fruit is good for jelly, and very ripe fruit for marmalades and jams.

Don't undertake to study astronomy and drive a fractious colt at the same time.

Feed the hens for eggs as the cow is fed for milk—chopped cornstalks and clover hay.

The value of a good cow is generally estimated too low and that of a poor one too high.

Hogs closely confined in unclean pens this hot weather are very liable to contract disease.

The sucking calves, colts and pigs suffer with the heat and need water as well as the baby in the house.

Half a teaspoonful of chloride of lime boiled in your enamelled ware saucepan will remove the stain.

Turkeys must have a good range to be profitable. They are natural foragers and must have a large range.

Young calves need water as well as milk during hot weather. Set a pailful over the fence and see them drink it.

The grain supply for chickens for supper should be scattered over the ground, which should be hard and dry.

Churning when you get time and at any and all degrees of ripeness of the cream, accounts for the varying flavor of the butter.

To get comfortably fitting shoes, buy them in the afternoon when the exercise of the day has spread the muscles to their greatest extent.

The best plan is to market your fresh eggs every three days. If you can secure regular customers it will pay better than selling to a dealer.

There is poison in the swill barrel. Swill containing soap and soap powders, and which has become putrid from standing this hot weather, is poison to your hogs.

From the middle to the last of this month clean out all weeds, cultivate and hoe the spring-set strawberries and let the runners take possession and form a matted row.

One of the best ways of removing lice from fowls is to make them do it themselves by having a lot of dry dirt where they can dust themselves whenever they feel inclined, having first sprinkled the earth with carbolic acid.

Any one to see an owl flying low over a field at dusk would not think he was aiding the farmer, yet that is just what he is doing, for he is looking for field mice, the bane of a potato patch. He also destroys bugs, etc.

The feet of the horses are liable to become very hard and dry at this time of the year. Pads made of old pieces of blanket, or any woolen cloth, wet and fastened around the hoofs is very beneficial. These can be worn in the stable during the night. If made thick they will not dry quickly.

In saving cabbage seed or any seed of a similar habit or growth cut off the entire tops and place them in an old sheet and put in a loft to ripen and dry out. When dry fold the sheet and thresh the seed out with a stick. This prevents waste. When half the pods are dry the crop may be gathered; indeed, the seed are considered less valuable when wholly ripened on the stalk.

A Good Cough Medicine.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble give it a trial, for it is certain to prove beneficial. Coughs that have resisted all other treatment for years have yielded to this remedy and perfect health restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by H. M. Sigloch, City drug store.

Courier Points.

Some men drink the pleasures of life only from a glass.

The business of "growlers" continues to be rushing.

No man can be just who has not learned to be generous.

When a man has too many cock-tails he is inclined to crow.

No, Mabel, matches made in heaven are not to be made light of.

There is nothing so cool and collected as a receipted ice bill.

Adam was probably very proud of Eve until he saw the snake.

There is many an outward laugh that conceals an inward groan.

Yes, Maud, July 4 is a holiday when nothing but the fire works.

Marriage is an end to a man's trouble, but it is usually the wrong end.

A girl's spirituality generally crops out in the patterns on her stockings.

The maiden aim of some young women is to change their maiden name.

You had better throw stones at random than unkind words that are well aimed.

Lots of little sins are committed simply because they have high-sounding names.

Sometimes a girl is a poem to a man and sometimes she is simply a blank verse.

No man who isn't married and doesn't play chess needs to take life very seriously.

To be beloved swells the hearts of some men, and with some it simply swells their heads.

The trouble with the man who never forgets anything is that he never forgets to boast about it.

The corkscrew never pulled any man out of a tight place. It usually helps to make him tighter.

Imitation is the sincerest flattery, but no girl thinks so when some fellow gives her an imitation diamond.

Isn't it queer that a man likes to say: "When I was a boy," but a woman hates to say: "When I was a girl."

The fact that Chicago has 4,118 attorneys may shed some light on the reason why it is called the "Windy City."

A wife will trust her husband with her soul's inmost secrets and then won't trust him to go to the ice chest by himself.

All the water in Chicago is boiled. In fact with the hot weather they are having there it is pretty hard to keep the ice from boiling.

"Say, why don't you call your dog off?" asked the unwelcome caller. "Because," was the quiet answer, "that ain't his name."

If you could look at the love that is in a summer girl's heart you would probably find that it looked most like a slice of raw beef.

The difference between a widow and a girl is that the widow never feels her nose get cold when she sees the man she is in love with.

"I took a 16 to 1 chance in going home last night." "How was that?" "Well, my wife was up gazing at the clock, and it was 16 to 1."

The woman who is too near-sighted to see when the buttons are off her husband's shirt can often read mighty fine print in a scandal.

Generally it is when some lazy man's wife refuses to take in washing to support him that he begins to talk about marriage being a failure.

There probably never was a woman who does not believe that she can arrange bric-a-brac with just a little better taste than any other woman.

A man is sometimes called a hero because he died for a woman, but he might have earned the title if he had lived with her and not died for her.

Among the unknown heroes of the world is the woman who works hard two days in getting up a picnic luncheon which two unappreciative people gobble down in 19 minutes.

There is no longer an excuse for anyone to endure the torture inflicted by piles when TABLET'S BUCKEYE PILE OINTMENT will cure them, a remedy so moderate in price and so effective. Price, 50 cents in bottles. Tubes 75 cts. H. M. Sigloch, City drug store.

Don't Stop

taking Scott's Emulsion because it's warm weather. Keep taking it until you are cured.

It will heal your lungs and give you rich blood in summer as in winter. It's cod liver oil made easy.

50c. and \$1. All druggists.

Mrs. Dewey's Repartee.

Father Macklin, who married Mrs. Hazen to Admiral Dewey at his rectory in Washington, some time ago wrote to Mrs. Hazen when her quarterly pew rent was due. In his note he said that her pew, No. 61, in his church was getting moldy, and he feared she might be going to some other church than his. On the wedding morning she reminded him of it, and said: "Now, Father Macklin, could you not say my pew is 'Mildewey,' instead of that very ugly word?"

No More Nitro-Glycerin Powder.

The manufacture of nitro-glycerin powder for the use of the army will be abandoned and the army ordnance department will adopt a pure soluble cotton powder, similar to that used by the navy. The decision for this change is brought about by an accident which recently occurred at Sandy Hook while testing a 6-inch gun and while using the smokeless powder made for use in 8-inch guns, but with the grains cut in half. The charge, on this occasion, gave a pressure of over 80,000 pounds, which exceeded the pressure gauge of the gun. Several parts of the breech mechanism were injured.

Heartburn.

When the quantity of food is too large or the quality too rich heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals, and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by H. M. Sigloch, City drug store.
